

Russell Gallinera

Systems Administrator
Relocating to Toronto, ON

(204) 962-8829 | russellgallinera@gmail.com | russellgallinera.com

Summary

Systems administrator with 4+ years of experience, currently supporting 1,100 users across Microsoft 365, Active Directory, and Intune. Built centralized Prometheus and Grafana monitoring for 12 firewalls and six Proxmox hosts. Wrote a PowerShell provisioning tool that eight teammates used to create 100+ accounts. Holds AZ-104, CCNA, and Security+ certifications.

Experience

Manitoba Metis Federation

Feb 2024 - Present

Systems Administrator / Winnipeg, MB

- Administer Active Directory, Entra ID, Microsoft 365, and Intune for 1,100 users and 320 endpoints, including about 15 Win32 app deployments and Windows Autopatch policies.
- Built centralized monitoring and alerting for 12 FortiGate firewalls and six Proxmox hosts (about 100 VMs) using Prometheus, Grafana, Loki, and Alloy.
- Turned the standard FortiGate configuration into a reusable Ansible playbook that provisions VLANs, firewall policies, IPsec VPNs, eBGP, and Security Fabric, and corrects configuration drift when rerun.
- Brought up the FortiGate side of a redundant AWS site-to-site VPN by fixing mismatched tunnel keys and BGP neighbor settings, then used a prefix list to stop AWS from dropping BGP sessions.
- Implemented a FortiClient EMS remote-access VPN for about 250 users, with Entra SAML sign-in, group-based firewall access, and pre-logon connectivity through device certificates.
- Wrote scheduled PowerShell and Microsoft Graph jobs that remove stale devices and sync FortiGate inventory to Hudu, plus Ansible roles for Linux domain joins and patching.
- Contained a Darktrace-flagged ClickFix credential-harvesting attack by quarantining the endpoint, resetting credentials, and rebuilding the device, prompting removal of the Run dialog from managed devices and MFA enforcement.

Manitoba Metis Federation

Mar 2022 - Feb 2024

IT Support Technician / Winnipeg, MB

- Resolved 30+ support requests a week across Windows, macOS, and iOS, documenting fixes and escalating unresolved issues with clear context.
- Onboarded 10+ new employees a month, from Active Directory account creation to workstation setup.

Certifications

Microsoft Azure Administrator (AZ-104)

Expires Mar 2027

Microsoft

Cisco Certified Network Associate (CCNA)

Expires Sep 2027

Cisco

CompTIA Security+ (SY0-701)

Expires Aug 2028

CompTIA

Projects

Active Directory User Administration Tool

Dec 2025 - Feb 2026

- Built a PowerShell and WPF tool that eight teammates used to create 100+ Active Directory accounts, saving about two minutes of manual entry per account.
- Added validation, conflict detection, and automatic OU placement to keep directory data consistent.

Software License Cost Recovery Automation

May 2026 - Aug 2026

- Deployed a daily PowerShell job that syncs Entra license assignments for 1,100 users into Snipe-IT, replacing manual license tracking.
- Set up Grafana reports on departmental software spend to support license-recovery reviews.

Homelab Infrastructure as Code (Personal Project)

May 2025 - Present

- Defined a nine-VM Proxmox lab as code, with Terraform provisioning the VMs, Ansible configuring them, and Docker Compose running services.
- Segmented the network into three VLANs behind a default-deny OPNsense firewall, routing all web traffic through a single Caddy reverse proxy.

Technical Skills

Microsoft Identity & Endpoint: Active Directory, Microsoft Entra ID, Microsoft 365, Microsoft Intune, Windows Autopatch, WinGet, Group Policy, Conditional Access, Microsoft Entra Connect, Hybrid Join, Privileged Identity Management (PIM), Multi-Factor Authentication (MFA), Exchange Online, SharePoint Online, Microsoft Teams, Apple Business Manager

Systems & Virtualization: Windows Server, Linux, Ubuntu, macOS, iOS, Proxmox VE, Docker, Veeam Backup & Replication, MySQL, Dell iDRAC

Automation & Scripting: PowerShell, Microsoft Graph API, Ansible, Bash, Python, REST APIs, Git, GitHub, WPF, Group Managed Service Accounts (gMSA)

Networking & Security: Fortinet FortiGate, FortiClient EMS, FortiAP, IPsec VPN, Site-to-Site VPN, AWS Site-to-Site VPN, BGP, SAML Authentication, VLANs, TCP/IP, DNS, DHCP, Darktrace, Bitdefender

Monitoring & IT Tools: Prometheus, Grafana, Grafana Loki, Grafana Alloy, Snipe-IT, Hudu, Splashtop, PaperCut

Education

University of Winnipeg

2017 - 2021

Bachelor of Science in Computer Science / Winnipeg, MB
