

Russell Gallinera

Systems Administrator
Relocating to Toronto, ON

(204) 962-8829 | russellgallinera@gmail.com | russellgallinera.com

Summary

Systems administrator with 4+ years of experience, currently supporting 1,100 users across Microsoft 365, Active Directory, and Intune. Runs FortiGate firewalls, site-to-site and remote-access VPNs across six remote sites. Wrote a PowerShell provisioning tool that eight teammates used to create 100+ Active Directory accounts. Holds AZ-104, CCNA, and Security+ certifications.

Experience

Manitoba Metis Federation

Feb 2024 - Present

Systems Administrator / Winnipeg, MB

- Administer Active Directory, Entra ID, Microsoft 365, and Intune for 1,100 users and 320 endpoints, including Windows Autopatch policies and about 15 applications packaged as Intune Win32 apps.
- Built centralized monitoring and alerting for 12 FortiGate firewalls and six Proxmox hosts (about 100 VMs) using Prometheus, Grafana, Loki, and Alloy.
- Configured six remote-site FortiGates to a common baseline covering firewall policies, VLANs, FortiAP profiles, certificates, and IPsec VPNs.
- Troubleshoot a failing site-to-site IPsec VPN to AWS and brought both redundant tunnels and their BGP peering online.
- Implemented a FortiClient EMS remote-access VPN for about 250 users, with Entra SAML sign-in, group-based firewall access, and pre-logon connectivity through device certificates.
- Wrote scheduled PowerShell and Microsoft Graph jobs that remove stale Entra ID device records and sync FortiGate inventory to Hudu, plus Ansible roles that realm-join Linux hosts with SSSD and keep them patched.
- Contained a Darktrace-flagged ClickFix credential-harvesting attack by quarantining the endpoint, resetting credentials, and rebuilding the device, prompting removal of the Run dialog from managed devices and MFA enforcement for the affected department.

Manitoba Metis Federation

Mar 2022 - Feb 2024

IT Support Technician / Winnipeg, MB

- Resolved 30+ support requests a week across Windows, macOS, and iOS, including remote sessions through Splashtop.
- Onboarded 10+ new employees a month, from Active Directory account creation to workstation setup.

Certifications

Microsoft Azure Administrator (AZ-104)

Expires Mar 2027

Microsoft

Cisco Certified Network Associate (CCNA)

Expires Sep 2027

Cisco

CompTIA Security+ (SY0-701)

Expires Aug 2028

CompTIA

Projects

Active Directory User Administration Tool

Dec 2025 - Feb 2026

- Built a PowerShell and WPF tool that eight teammates used to create 100+ Active Directory accounts, saving about two minutes of manual entry per account.
- Added validation, duplicate-username detection, and automatic OU placement to keep directory data consistent.

Software License Cost Recovery Automation

May 2026 - Aug 2026

- Deployed a daily PowerShell job that syncs Entra license assignments for 1,100 users into Snipe-IT, replacing manual license tracking.
- Set up Grafana reports so managers could see software spend by department and reclaim unused licenses.

Homelab Infrastructure as Code (Personal Project)

May 2025 - Present

- Defined a nine-VM Proxmox lab as code, with Terraform provisioning the VMs, Ansible configuring them, and Docker Compose running services.
- Segmented the network into three VLANs behind a default-deny OPNsense firewall, routing all web traffic through a single Caddy reverse proxy.

Technical Skills

Microsoft Identity & Endpoint: Active Directory, Microsoft Entra ID, Microsoft 365, Microsoft Intune, Windows Autopatch, WinGet, Group Policy, Conditional Access, Microsoft Entra Connect, Hybrid Join, Privileged Identity Management (PIM), Multi-Factor Authentication (MFA), Exchange Online, SharePoint Online, Microsoft Teams, Apple Business Manager

Systems & Virtualization: Windows Server, Linux, Ubuntu, SSD, realmd, macOS, iOS, Proxmox VE, Docker, Veeam Backup & Replication, MySQL, Dell iDRAC

Automation & Scripting: PowerShell, Microsoft Graph API, Ansible, Bash, Python, REST APIs, Git, GitHub, WPF, Group Managed Service Accounts (gMSA)

Networking & Security: Fortinet FortiGate, FortiClient EMS, FortiAP, IPsec VPN, Site-to-Site VPN, AWS Site-to-Site VPN, BGP, SAML Authentication, VLANs, TCP/IP, DNS, DHCP, Darktrace, Bitdefender

Monitoring & IT Tools: Prometheus, Grafana, Grafana Loki, Grafana Alloy, Snipe-IT, Hudu, Splashtop, PaperCut

Education

University of Winnipeg

2017 - 2021

Bachelor of Science in Computer Science / Winnipeg, MB
